Do I need an ID to vote? *You do NOT need photo identification to vote in California.* The only time you need to show any document before voting is if you registered online or by mail *and* you did not include your driver's license, state ID, or Social Security number *and* it is your first time voting. Then you will be required to provide one of over 30 types of acceptable documentation, including a military or student ID, a utility bill, or a piece of mail from the government.

What if I am told I cannot vote or if my right to vote is challenged? *Do not leave without voting!* Just say: "I believe I am registered to vote in this county and I would like to vote using a provisional ballot." A provisional ballot is used when there are questions about a voter's eligibility that need to be cleared up.

Do I need to vote on everything on the ballot? *No.* Your vote will be counted for any of the propositions you vote on or any candidates you vote for on the ballot. If you make a mistake on your ballot, you have the right to request another ballot.
